ANTISEPTIC ITEMS

STERILE GAUZE COMPRESS

400024 cm 18x40 / Single **400049** cm 20x20 / Single
400025 cm 10x10 / 25 pcs **400079** cm 10x10 / 8 folds

These gauze compresses are in pure, soft, absorbent cotton gauze, suitable for all medication needs. In domestic medication, the sterile gauze pads are suitable for protecting small, superficial wounds. They provide superior protection and rapid absorption.

NON-STERILE GAUZE

400064 cm 10x10 / Pack: 1 kg
400142 cm 20x20 / Pack: 1 kg

Single-use, non-sterile/sterilizable, cut cotton pads, uniform white in color, with a regular, non-slanted texture, free from fraying and selvages. Non-sterile, can be used as a non-invasive protection and mechanical barrier for compression and absorption of exudates.

400040 EYE PAD

Size: cm 9,5x6,5

It is produced from a special non-woven fabric that ensures maximum breathability and comfort. Thanks to its thickness, it guarantees the best protection and is highly absorbent. Sterile with an adhesive edge: easy and comfortable to apply, the dressing is ready to use and does not hurt when removed.

500048 TRIANGULAR BANDAGE

Size: cm 96X96X136
Non-woven

Triangular sheet made of non-woven fabric (TNT), useful for creating support bandages or for fixing dressings.

400011 EMOSALV NASAL SWABS

This haemostatic nasal plug is made of highly absorbent cellulose. Indications: light and moderate nose bleeds without the use of chemicals.

STERILE BURN DRESSING

400093 cm 60x80 / Non-woven

500047 cm 40x60 / Non-woven

Disposable sterile TNT drapes are an essential product to ensure maximum hygiene and safety in medical and first aid practices.

COTTON WOOL

400062 Pack: 20 g

400018 Pack: 50 g

400020 Pack: 100 g

400022 Pack: 1 kg

Cotton wool can be used as an absorbent material to soak up excess fluid around the wound.

400005 NASAL SWABS

Size: cm 4h / cm 1 ø
Pack: pcs 40

Cotton tampons useful for nasal haemorrhages. Absorbent.

GAUZE-DRESSING-COTTON WOOL-SWABS

500073 STERILE COPOLYMERE GLOVES

Size: S (6-6,5) M (7-7,5) L (8-8,5) XL (9-9,5)
Pack: pcs 100

Colour: ■

Powder free disposable nitrile glove.

500029 SAFETY MASK WITH EYE PROTECTION VISOR

With ear loops.

500125 SAFETY MASK

Pack: pcs 50

Non-woven 3 layers.
With elastic loops and nose clip.

BANDAGES

HEMMED GAUZE BANDAGE

400000 cm 5x2
400001 cm 5x5
400002 cm 5x7

400063 cm 3,5x10
400003 cm 5x10

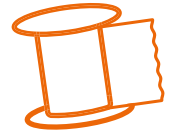

Gauze bandage of 100% cotton, soft and hydrophilic.
 Its edges prevent the fringing of the mesh and double wire mesh
 guarantees a high quality fabric.
Indications: for fixing dressings.

SOFT ELASTIC BANDAGE

400058 m 4 x cm 6
400059 m 4 x cm 8
400060 m 4 x cm 10

Soft elastic bandage, high elasticity and permeability, perfect
 conformability and kept even if worn for a long time on joints mobile.
 High elasticity allows quick and easy application of bandage.
Indications: ideal for dressing in case of dislocation, sprains.

BANDAGES

STERILE PAD BANDAGE

- 500046** mm 80 X 100 din
500063 mm 100 x 120 din

Sterile non-woven bandages with swab. Thanks to swab inserted at the beginning of the bandage it is very fast to medicate and blindfold.
Indications: medications.

ELASTIC TUBULAR NET

- 400042** SIZE 0 - extens. m 50 Finger
400051 SIZE 1 - extens. m 50 Ankle/Hand/ Foot/Wrist
400034 SIZE 2 - extens. m 50 Arm/Ankle/Knee/Hand/Wrist/Foot
400044 SIZE 3 - extens. m 50 Arm/Leg/Knee/Elbow/Shoulder
400032 SIZE 4 - extens. m 50 Thigh/Head
400053 SIZE 5 - extens. m 50 Head/Thigh/Hip
400052 SIZE MEDIUM - extens. m 1

Mesh Bandage is an elastic tubular mesh bandage suitable for securing dressings.
 It adapts anatomically and allows freedom of movement and breathability. It adheres perfectly without constricting. Easy to apply and remove, it allows freedom of movement and allows the skin to breathe. Suitable for securing dressings on large surfaces or difficult-to-reach areas of the body.
 The wide mesh allows for control of the dressing without removing it. Available in various sizes to fit every part of the body.

LIGHT COHESIVE ELASTIC BANDAGE

- 400106** m 4 X cm 6
400105 m 4 x cm 8
400075 m 4 x cm 10

Mono extensible cohesive bandage fixation type, 100% of extensibility. It sticks only to itself and does not adhere to the skin, hair or tissue. Allows to set any medication to the head, arms, legs, fingers, knees and ankles.
 Air-permeable, absorbing, maximum comfort.
Indications: conic and round region bandages, it is ideal for dressings and compression support.

STRONG COHESIVE ELASTIC BANDAGE

- 400076** m 4,5 X cm 7,5
400077 m 4,5 x cm 10

Strong cohesive elastic bandage. Self-adhesive bandage specifically for supporting dressings of medium and strong. Extensibility 130% ca. It doesn't slip zones of the body of a round shape and joints, suitable for sports bandaging. Permeable to air.
Indications: specifically for supporting middle or strong medications.

400108 NWN COHESIVE ELASTIC BANDAGE

Size: cm 7,5x m 4,5

Nwn cohesive elastic lightweight bandage, flexible and easily strappable, adheres to itself and ensures the lock without blocking the mobility. Provides a durable medium that doesn't slip with sweat, leaving the skin breathe.
Indications: recommended for muscle diseases and joint and tendon.

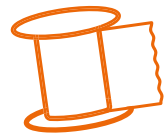

ELASTIC BANDAGE FOR COMPRESSION

400054 m 4 x cm 7,5

400074 m 4 x cm 10

Elastic lightweight bandage for compression, washable repeatedly. It adapts to parts of the body conical or round; it does not prevent movement.
Indications: treatments resulting from dislocation, sprains, contusions in requiring compressive type therapy and supportive.

500097 ECOLOGIC THERMOMETER

Non-toxic mercury-free gallium glass clinical thermometer. Used liquid is a gallium, indium and tin alloy. High accuracy, easy cleaning and reliable disinfection of the glass case makes it 100% hygienic, waterproof, suitable for allergic persons (no PVC, no nickel). It helps to prevent virus transmission. No batteries. No further maintenance. Supplied with transparent plastic box.

600138 ANEROID SPHYGMOMANOMETER PEDIATRIC

Sphygmomanometer with alloy gauge complete with two bracelets infant / child. Pressure gauge with black pointer and numbers on white base. Attached cuff 18.5 X5.5 Cm - 33,5 x10 cm, 5 made of patterned fabric complete with air chamber by means of two tubes with velcro closure. Insufflation bulb with check valve ball made entirely of metal and chrome tap screw. Latex Free. Supplied in a leatherette bag with zipper.

600051 ANEROID SPHYGMOMANOMETER

With Stethoscope

Pressure gauge light alloy. Tolerance +/- -3 mm/hg. Equipped with adult cotton cuff with velcro® and metal ring. Provided with zippered leatherette case.

600081 FINGER OXIMETER

Weight: kg 0,40

Finger oximeter provides SpO2 for estimation of your blood's oxygen saturation level.

600150 ELECTRONIC DIGITAL ARM SPHYGMOMANOMETER

Sphygmomanometer with large LCD display. Advanced precision system based on Fuzzy Algorithm (individual heartbeats), easy to use and with memory function of measurements. Auto Power Off. 120 memories, date and measurement time. With oscillometric reading system.

600056 WRIST-TYPE AUTOMATIC DIGITAL BLOOD PRESSURE MONITOR

Oscillo-metric measuring method. Rapid and accurate measurement of systolic and diastolic pressure. Indication of the measurement according to the international standards (WHO/OMS). Integrated velcro cuff with automatic pressurization. With protective storage case. Batteries included.

- Blood pressure classification indicator
- 2 User memory zones
- 60 Memories of each user
- Average of the last 3 memories
- Date / time indicator
- Heartbeat frequency measurement
- Irregular heartbeat detector (Arrhythmia ihd)

TOOLS AND ACCESSORIES

500019 SCISSORS

Size: cm 9

Stainless steel blades, ABS handle.

500078 DRESSING SCISSORS ABS HANDLE

Size: cm 14

Stainless steel blades, ABS handle.

500244 DRESSING SCISSORS

Size: cm 19

With plastic handles - Lister.

500144 STRAIGHT SCISSORS ABS HANDLE

Size: cm 18

Stainless steel blades, ABS handle.

500033 METAL TWEEZERS

Size: cm 8

500032 STERILE POLYPROPYLENE TWEEZERS

Size: cm 11

Disposable.

500031 NON-STERILE POLYPROPYLENE TWEEZERS

Size: cm 8

FLAT NITRILE TOURNIQUET

500120 Pcs 1

500057 Pcs 3

500025 ELASTIC TOURNIQUET WITH BUCKLE

Size: cm 35
Pack: 50 pcs

500026 TUBULAR HAEMOSTATIC TOURNIQUET

Size: cm 35
Pack: 50 pcs

600054 POISON SUNCTION PUMP

With adaptators

500099 SYRINGE PICK TWEEZERS

Lenght: cm 100

Aluminium body, plastic handles and points.
Ideal for picking syringes and small items.

500003 DISPOSABLE SCALPEL

Plastic handle and stainless steel blade. Individually packed. Sterile.

WASTE BAG

700002 Size: cm 20x30

700002/BI With minigrip zipper / Size: cm 20x30

Disposable.

TOOLS AND ACCESSORIES

RESUSCITATION

500307 SMARTY SEVER S/AUTOMATIC DEFIBRILLATOR

After checking the patient's ecg and detecting a shockable rhythm, the smarty saver semi-automatic defibrillator automatically begins charging the shock energy. Once ready, the operator is notified by a visual and voice prompt to press the shock button to deliver defibrillation. The resuscitation phase is then initiated by a voice prompt and metronome.

- Semi-automatic version.
- Simple and easy to use.
- With bte waveform and shock $\leq 200j$
- Battery life up to 200 complete rescue cycles; up to 36 hours of continuous ecg analysis.

REANIMATION BALLON

600002/A Adult
600002/P Pediatric

PVC reusable reanimation balloon provided with an mask, reservoir, oxygen connected tube. Non-autoclavable

600072 OXYGEN MASK WITH TUBE

Oxygen mask with tube m 2,10 - Adult.

600143 OXYGEN MASK WITH TUBE

Oxygen mask with tube m 2,10 and reservoir - Adult.

800195-R READY KIT

Size: cm 15x13x6
Nylon bag, zip closure, single-color logo

Colour: ■

2 Pairs of sterile gloves
3 Disinfectant wipes
1 Sterile gauze, 18 x 40 cm
1 Flexible oronasal mask with case
1 Bandage scissors, 14.5 Cm, abs handle
1 Medical razor

500000 MOUTH OPENER

It provides breathing relief for convulsive victims.

500012 CPR MASK WITH BOX

Transparent flex mask with box. The oxygen port is built directly into the mask and the one-way valve has a mouth-piece for both victim and rescuer.

RESUSCITATION

500035 MOUTH-TO-MOUTH RESPIRATOR

Mouth to mouth resuscitation device without contact. Composed of a non-toxic PVC face shield and a one-way valve.

GUEDEL ORAL AIRWAY

- 500156** Size: 0 / lenght mm 60
- 500086** Size: 1 / lenght mm 70

4693 EYEWASH FLUO ALL RISK

Size: cm 41x32x7,5
Weight: kg 1,20

Colour: 

Emergency eye wash station, consisting of 1 washing solutions of 500 ml with pre-assembled integral cap for quick use, 1 PH neutral solution 250 ml and 1 mirror. Supplied with screws and plugs for wall application. Thermoformed container with transparent front.

4690 EYEWASH FLUO

Size: cm 41x32x7,5
Weight: kg 1,20

Colour: 

Emergency eye wash station, consisting of 2 washing solutions of 500 ml with pre-assembled integral cap for quick use and 1 mirror. Supplied with screws and plugs for wall application. Thermoformed container with transparent front.

EYE FIRST AID

300113 PH NEUTRAL SOLUTION

Bottle ml 250

A small, handy bottle containing 4.9% Sterile phosphate buffer solution, that neutralises the eye's fluid after accidents involving chemicals. The bottle is easy to take with you in the specially designed belt bag, the first aid box, the toolbox etc. The bottle is provided with an ergonomic eye cup, a dust cap and clear instructions. Rinsing time: about 2 min.

EYE WASH SOLUTION

300104 ml 250
300105 ml 500

A handy bottle containing sterile sodium chloride solution (0.9%). With an ergonomic eye cup, a dust cap and clear instructions. For refilling stations or for use alone. Rinsing time: about 5 min.

STRETCHERS AND IMMOBILIZATION

600040 FOLDABLE STRETCHER

Size: opened cm 221x53x15 Load capacity: kg 159
 closed cm 110x18x11 Material: aluminum / nylon
 Weight: kg 5

The simplest pole-stretcher available. Construction is sturdy but light weight with durable cover. Vinyl coated nylon does not absorb blood or body fluids. Four shaped handles. Folds in 4 parts for easy storage. Carrying bag included. CE 93/42.

600053 SET OF 3 RESTRAINT BELTS WITH BAG

Perfect assurance to the patient in any methods of transport. The belt comes in a practical, tear-proof nylon bag which reduces storage space and has a simple system which permits attachment to one of the tubes of the stretcher.

Thanks to a new electronic system which controls the tension of the thread (active tension) the re-enforcement stitching used in the manufacture of our safety belts assures high quality with uniform stitching that is reliable.

600010 SPINAL BOARD

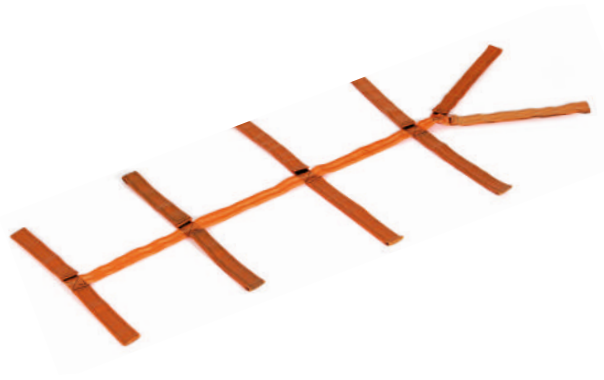

Size: cm 184x45x5
Weight: kg 7

Load capacity: kg 159
Material: polyethylene

The spinal board is built from high density cross linked polyethylene - this avoids splintering and cracking. The surface is impervious to body fluids and petroleum products being easy to keep clean. Ideal for total immobilization for casualties. Spinal features include: seamless moulding to eliminate ingress of fluid. Foam filled core for flotation. Firm surface. Convex underside to allow easy lifting access, compatibility with standard 'navy rescue' basket stretcher. X-ray translucent.

600006 SPIDER-STRAP

A practical and robust system for the immobilization onto spine boards. Adaptable to all spine boards and to all patients thanks to the extension of the belt. Made with polypropylene tape, the strap fixation system assures simple and quick use. Thanks to a new electronic system which controls the tension of the thread (active tension) the re-enforcement stitching used in the manufacture of our safety belts assures high quality with uniform stitching that is reliable.

600043 SCOOP STRETCHER

Size: lenght min-max cm 16-124 Load capacity: kg 159
folded cm 120x42x9,5 Material: aluminium alloy
Weight: kg 8

The scoop stretcher telescopes to accommodate the tallest patient and folds for compact storage designed so attendants can uncouple either end of the stretcher and gently scoop up the patient using scissors. Type closing motion. Tubular aluminium construction with extruded aluminium blades. 3 Nylon restraint straps included. CE 93/42 complies.

600008 PVC STORAGE CARRYNG CASE

The necessity to hang the scoop stretcher is very common in public or industrial areas. The bag is made of tearproof nylon, and apart from its great visual impact, it is structured to contain other immobilization or CPR devices within purpose made compartments. It has two strong hooks to hang on the wall and a comfortable side handle for carrying.

STRETCHERS AND IMMOBILIZATION

600016 BASKET STRETCHER

Size: cm 215x65x20
Weight: kg 13

Load capacity: kg 280
Material: PPL

This shell is a new design - for a wide range of rescue situations. The shell is built from high density cross linked polyethylene - this avoids splintering and cracking. The surface is impervious to body fluids and petroleum products - being easy to keep clean. It will not rust or corrode, resistant to effects of chemicals and temperature extremes. Tubular aluminium frame is permanently fastened to the shell to ensure maximum strength and rigidity of the stretcher. Adjustable lifting bridles. Including three quick-release restraints to hold the patient securely.

600134 BASKET STRETCHER ROLLY

Size: cm 245X92
Weight: kg 7,3

This shell is a new design - for a wide range of rescue situations. The shell is built from high density cross linked polyethylene - this avoids splintering and cracking. The surface is impervious to body fluids and petroleum products - being easy to keep clean. It will not rust or corrode, resistant to effects of chemicals and temperature extremes. Tubular aluminium frame is permanently fastened to the shell to ensure maximum strength and rigidity of the stretcher. Adjustable lifting bridles. Including three quick-release restraints to hold the patient securely.

LIFTING BRIDLES

600018 Fixed

600018/R Adjustable

Nylon lifting bridle used for horizontal and vertical lifting situation. Load capacity guarantee. Fruit of an intensive research in collaboration with the most qualified manufacturers of safety nylon ropes. These lifting systems become protagonists of a process of functional innovation in order to adapt to the continual transformations required by rescue.

600047 UNIVERSAL IMMOBILIZER

Studied to ameliorate the stability of patient skull and cervical rachis during the transport in order to cancel the kinetic components in all the directions of movement. The restraining system of the supports and are projected to make fast and easy the use of this head immobilizer with every kind of spinal boards.

600019 FOLDING STAIR CHAIR

Size: height cm 91/width: cm 51
Weight: kg 8,5
Load capacity: kg 159

Opened handles: cm 120
Closed handles: cm 86
Folded: cm 120

Fundamental item for extremely narrow hallways: stairs, corridors, elevators or where the standard stretcher cannot pass through. Made of light aluminium and with a waterproof thermoplastic nylon sheet, easy to be cleaned, with 4 anatomic handles, 3 quick lock safety belts to immobilize the patient, this chair is supplied by 2 fixed wheels for an easy carriage on smooth ground.

600048 TRANSFER SHEET

Size: cm 190x53
Load capacity: kg 150

Cover in synthetic material, allows safe transport of the injured person thanks to its 10 handles.

EMERGENCY BLANKET

500006 cm 160x220
500006/P IN BLISTER PACK

Indispensable device in the first aid of traumatised and burnt patients. Provides protection from the cold with the silver part towards the body: it reflects 80% of the heat of the body and avoids hypothermia (protection from the cold). Allows protection from the heat if the gold part of the sheet is next to the body: the sun rays are reflected allowing the body to remain fresh (protection from the heat). This isothermal blanket can be used even in extreme temperatures. Made of aluminiumised polystyrene sheets. Single packaging in individual packet.

500130 ALUMINIUM FINGER SPLINT

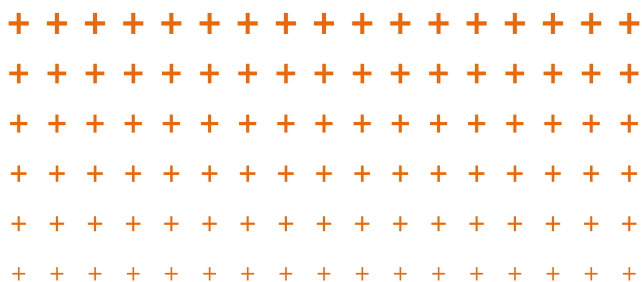

Size: cm 46x2

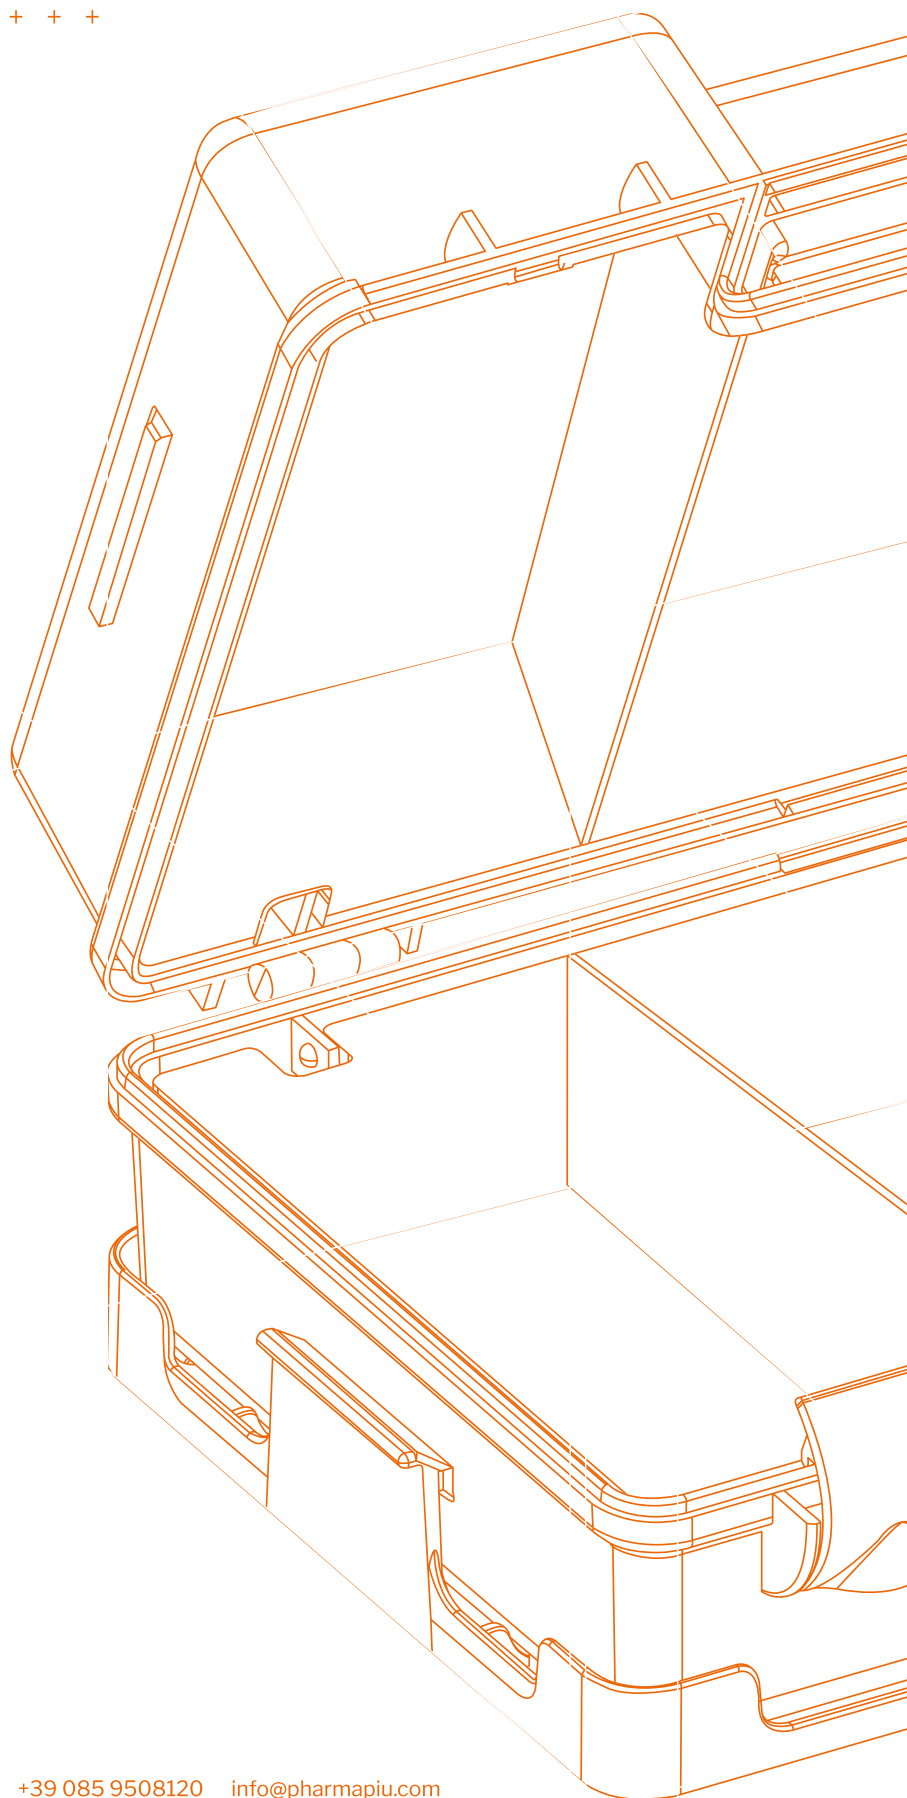

Aluminium finger and arm/leg fracture splint with rubber padding.
